WORK EXPERIENCE

Full Stack Web Developer | Freelancing

Remote Work

- Built full-stack systems from scratch for personal use and open-source.
- Managed deployment, version control, performance optimization, and security.
- Familiar with reading legacy codebases and modernizing outdated patterns.

Data Encoder | September 2024 - March 2025

Buwelo ExactStar Company

- Encoded patient personal data accurately from fax forms into a digital system.
- Reviewed faxed patient information to ensure completeness and identify inaccuracies.
- Communicated with physicians via phone to clarify unclear or missing data on patient forms.

ACADEMIC HISTORY

Mondriaan Aura College | 2017-2019

TVL - Information in Communication Technology

- Specialization in Graphic Design and Computer Software.
- Completed a work immersion at Servant Advertising Co.
- Completed with a National Certificate III (NCIII) in Graphic Design awarded by TESDA.

SKILLS

- React, Next.js, Tailwind CSS, HTML5, CSS3, TypeScript, JavaScript
- Node.js, Express, REST APIs, PostgreSQL, Drizzle ORM, Prisma
- Git & GitHub, Vercel, Railway, PM2, JWT, Zustand, Server Actions

Self-Taught Developer

Full Stack Web Development

- Started programming by building Discord bots using TypeScript/JavaScript.
- Learned modern web technologies including React, Next.js, PostgreSQL, and TypeScript.
- Built full-stack apps like syntra-site project management system.
- Created tsconfig-site a single-page dev tool for generating TypeScript config.
- Practiced real-world development using Git, GitHub, and project-based workflows.
